

Title: LaCoRe

Language and cognitive restructuring in the bilingual mind: dynamic shift or categorical dissociation?

Principal investigator: *Eva Soroli*, University Professor (UMR STL, ULille, in collaboration with the University of Mannheim and King's College))

Abstract:

The project aims to investigate linguistic and cognitive restructuring in the bilingual mind, focusing on how speakers of different languages—with or without language disorders—describe and conceptualise events.

Project start date: *January 2025*
